Bahrain Independent Commission of Inquiry Recommendation (23rd Nov 2011):
“To establish a national independent and impartial mechanism to determine the accountability of those in government who have committed unlawful or negligent acts resulting in the deaths, torture and mistreatment of civilians with a view to bringing legal and disciplinary action against such individuals, including those in the chain of command, military and civilian, who are found to be responsible under international standards of “superior responsibility”.

On the occasion of the United Nations Human Rights Council Universal Periodic Review on Bahrain....
